Luggage services 行李箱产品测试认证服务

Your challenges

Luggage should be designed to ensure the safe transit of valuable personal items. Therefore, it is important that luggage be strong and be made of quality materials.

To ensure that the luggage you produce meet safety test standards and help you to stand out from the fierce competition, it is important that you choose an experienced third party agency for your testing and certification requirements.

How can we help you?

TÜV SÜD has extensive expertise in testing the performance and safety of luggage.

Physical & mechanical performance testing

- Strength, stability, durability, vibration, compression, drop, environment, flammability, material performance and fitness for use.
